## PROFESSIONAL SUMMARY

Data Engineer and final-year B.Tech Artificial Intelligence & Data Science student with 10+ months of hands-on experience designing, building, and optimizing scalable **ETL** and data pipelines for enterprise data. Proficient in **Python**, **SQL**, **PySpark**, **Hadoop** (HDFS), **Hive**, **HiveQL**, **MySQL**, **MongoDB**, **AWS** (S3), and **Power BI**, with strong expertise in data extraction, cleaning, validation, transformation, database schema design, and SQL/HiveQL query optimization. Skilled at converting raw, unstructured, and transactional data into clean, analysis-ready datasets that power reporting and business decisions. Seeking a Data Engineer or Data Analyst role to apply strong analytical and problem-solving skills to real-world data challenges.

## TECHNICAL SKILLS

**Programming & Query Languages:** Python, SQL, HiveQL

**Big Data & Data Engineering:** Apache Spark (PySpark), Hadoop (HDFS), Hive, Apache Airflow, ETL Pipelines, Data Pipelines, Data Cleaning, Data Validation, Data Transformation, Query Optimization, Batch Processing

**Databases:** MySQL, MongoDB (Aggregation Pipelines), Database Schema Design

**Cloud:** AWS (S3)

**Analytics & Reporting:** Power BI, Pandas, NumPy, REST API Integration for Data Pipelines, CRUD-based Data Retrieval, Data-Driven Decision Making

**Tools & Technologies:** Git, GitHub, Postman, Thunder Client, VS Code, PuTTY, WinSCP, Linux (Ubuntu), Windows

**Development Practices:** Agile Development, Data Pipeline Debugging, API Testing

## PROFESSIONAL EXPERIENCE

### Data Engineer Intern

Nov 2026 – Present

*ThinkInfo Expert Solutions Pvt. Ltd.*

*Salem, Tamil Nadu*

Designed and optimized 40+ **SQL** queries and **MongoDB Aggregation Pipelines**, improving reporting efficiency and backend data retrieval performance across enterprise modules.

Built and maintained 10+ data-driven enterprise modules using **Python**, **MySQL**, and **MongoDB**, streamlining **data processing**, **data flow**, and workflow automation for 100+ internal users.

Performed **data extraction**, **data cleaning**, **data validation**, and **data transformation** for employee, attendance, payroll, and leave datasets to ensure accurate, analysis-ready records.

Integrated 30+ **RESTful APIs** for employee, attendance, payroll, leave, and department management modules, ensuring reliable **data flow**, validation, and data integrity.

Built efficient **CRUD-based data operations** and backend logic to manage structured enterprise datasets, improving data scalability and maintainability.

Tested and debugged 100+ **API endpoints** using **Postman** and **Thunder Client**, improving data reliability and reducing integration issues.

Collaborated within an **Agile** team using **Git** and **GitHub**, working across Linux and Windows environments on **data pipeline development**.

## PROJECTS

### Human Resource Management System (HRMS) – Data Layer

2026

*Python, MySQL, MongoDB, ETL, REST API*

Designed and optimized **MySQL** and **MongoDB** database schemas for employee, attendance, leave, department, and finance data, with efficient **SQL queries** and aggregation pipelines.

Built **ETL pipelines** and integrated **REST APIs** using Python and Node.js/Express.js, transforming transactional data into structured datasets with secure, validated **data flow**.

### Spotify Data Analytics using Python & MySQL

2026

*Python, Spotify Web API, MySQL, Pandas, Matplotlib, SQL*

Built an end-to-end **data pipeline** to extract track metadata including track name, artist, album, popularity, and duration from the **Spotify Web API** using Python.

Cleaned and transformed raw API data using **Python** and loaded structured datasets into **MySQL** for efficient storage and analysis.

Analyzed track popularity trends using **SQL** and Python, generated visualizations with **Matplotlib**, and exported processed datasets to **CSV** for reporting.

## EDUCATION

### B.Tech, Artificial Intelligence and Data Science

2022 – 2026

*Muthayammal Engineering College*

*Tamil Nadu*

CGPA: 8.17 / 10
